INTRODUCTION

Auction Note: This is a rare opportunity to lease highly productive farmland for the 2026 through 2028 crop years located in Turner and Lincoln Counties, South Dakota, within 4 miles of Davis, SD. The properties have been farmed and carefully managed for more than 30 years, reflecting long-term stewardship and consistent agricultural performance.

The leased parcels range in size from approximately 17 +/- to 128 +/- acres, offering flexibility for both small expansions and larger operational growth. Many of the parcels feature highway frontage with excellent access, allowing for efficient movement of equipment and grain hauling. Proximity to local grain elevators and ethanol plants further enhances logistical efficiency, making these leases well suited for operations of any size.

The combination of productive soils, strong access, and location near key agricultural markets creates an excellent opportunity for producers looking to strengthen or expand their farming operation.

The successful bidder will receive possession on or before February 16, 2026, allowing adequate time for planning and preparation ahead of the 2026 crop year.
